## EXPERIENCE

### Mobile Application for Civil Registry of Mali

#### POUPOCK

March – August 2025 Remote

- As a member of a two-developer team, I worked on a mobile application designed to manage birth, marriage, and death certificates, covering the entire civil lifecycle from birth to death in Mali.
- The application supported multiple user profiles, including civil officers, declarants, and other roles involved throughout the process.

### Python Instructor

#### Afrik Tech

Dec 2024 – March 2025 Online – Zoom

- Served as a Python instructor for over two months at Afrik Tech.
- Designed a structured curriculum and led Python tutorial sessions every weekend in the evenings.

### WordPress Instructor

#### Université TIC

Sept 2024 – Jan 2025 On-site

- Gave back to the community by teaching young women and girls how to build websites and monetize them using WordPress.

## EDUCATION

### Bachelor Degree in Computer Science

#### ICT University

Oct 2022 – July 2025 Onsite

CGPA: 3.5/4

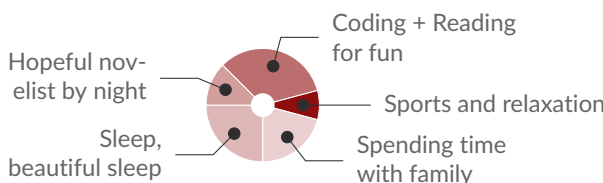

### Baccalauréat C

#### Lycée Bilingue de Nyom

Sept 2015 – June 2022 Onsite

Mention "Assez bien"

## A DAY OF MY LIFE

## MY LIFE PHILOSOPHY

*"Stay Hungry. Stay Foolish."*

## MOST PROUD OF

### Being a GDG On Campus Lead

Leading the next generation of googlers and tech talents in my University.

### Founder of Nerala

An application that allows you to learn in a fun and simple way the local languages of your choice.

## PROJECTS

### Desktop Application

#### Python Application

March 2024

- Developed a GUI application for managing rooms in an apartment.
- The application was built using Python and PyQt5, with a MySQL database to store information about rooms and tenants.

### CamMT

#### Web Application

April – Nov 2025 Online

- Led a team to build a robust machine translation system, deployed on AWS, for two low-resource Cameroonian languages: Fulfulde (Peul) and Ghomala.
